

How to Search for Classes on Web Advisor as a Guest

- To view the schedule of classes, visit Web Advisor from this link: <https://webadvisor.carlow.edu>. Once the page loads, click on the blue link marked "Search for Classes."

Select term Day/Grad or Accelerated and AT LEAST ONE other element

- In the Search for Sections window, select the **Term** for which you want to register.

Day/Graduate = Traditional undergraduate and graduate sections.

Accelerated = Includes many of the evening and weekend (Adult) undergraduate classes. [CAP (Carlow Accelerated Program) and WEC (Weekend College) classes]

You must select at least one other search element.

Tip The fewer search elements you select, the better your search results will be.*

- After submitting that search criteria, look through the following list of classes on Section Selection Results and **click on the individual links of courses in which you are interested in registering** to see expanded course information, such as course description, meeting information, faculty email, and link to textbook information.
