	<b>IT 143 - Microsoft Access</b>		1		GPA Total		15
	GPA Total		15		GPA Total		15

**Total Credits = 120**

Health Management Major required courses are highlighted in **Bold**. Flexibility is built into the schedule of courses to accommodate Fall and Winter admissions. Courses are offered in-person, online, or in a hybrid format – with these formats being rotated from semester to semester and year to year. The sequence of classes outlined above is a guide, as students often transfer in courses that are equivalent, with them not needing to be taken again at Carlow. Additionally, many courses are offered in a CAP format (8-weeks in duration) which helps students complete the program in a timely manner.

Consultation with the Program Director is critical to ensure previous courses taken, whether at another University or in different Carlow Major, are credited to the student. Prior learning and experiences are valued in the Health Management Program, with previously completed equivalent courses reducing the number of required courses to Graduate.

It is recommended that students seek electives in both areas of interest, and where a secondary Major or Minor can be earned. Health Care Data Analytics is a complimentary Major, with Information Technology (IT) a recommended Minor.

Breadth Courses (Need at least two courses in each area)
Wisdom:
Expression:
Natural World:
Social Justice
